DETAILED ACTION

1. Response filed June 27, 2005 has been acknowledged. In light of the new claims filed March 07, 2005, the Examiner hereby withdrawn the restriction requirement mailed on July 27 2004. A new restriction follows:

2. Claims 24-27 and 32 are generic to a plurality of disclosed patentably distinct species comprising: In claim 28, "removing the specifier specifying a relevant product being possessed by a customer, and receiving an abandonment specifier specifying an abandoned product purchased by a time of abandonment." In claims 29 and 31 "receiving a purchase order for an identified product transmitted by the customer and determining that the customer possesses the product stated in the purchase order." In claim 30, "receiving an experienced-product specifier, identifying a second product the customer has used, but does not possess, transmitted from the customer." Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
